## Remixing Farisha...

Farisha is a talented vocalist that has attracted attention from many producers around the world with her amazing accapella work on [looperman.com](http://looperman.com). *D:Raf Recording Studios* has been creating many remixes and side projects using Farisha's great vocals to create a huge buzz on [soundcloud.com](http://soundcloud.com). Farisha's music has expanded into different genres of music as she now writes songs ranging from *Ethnic* to *Mainstream Pop* and *R&B*.

Farisha has started a company where she sells her vocals and work to other artists around the world for collaborative pieces. "Farisha is a brilliant, generous and creative artist that provides so much great material for producers to work with," highlights Danny Rafael.

"Farisha is very brilliant, generous and a creative artist, that gives so much great material for producers to work with"

- Danny Rafael

Sitting in a session with *D:Raf* working with Farisha's accapellas, it is clear to see the creativity flowing. From simple beginnings, you hear a hit song evolve into a great dance track that any DJ would love to have in their original music repertoire.

"Danny has amazing an ability to write, record and produce in a very current way. He really *gets* the production of music and uses his expert knowledge of the dance scene to create amazing remixes of songs," explains Clarence Marshall, reflecting on the success of the 'Turn It to Gold Remix' of 'I Just want to love you'

*D:Raf Recording Studios* also offer a large range of recording packages that allow for remixing of your latest tracks. Many artists have come to realise that often it is the remix of their track that attracts the majority of their global attention. "It's funny how the accapellas I don't even try too hard on, end up becoming my most popular ones," boasts Farisha. *D:Raf* uses his full arsenal of audio tools to produce tracks ready to hit the dance floor and get everyone moving, while still maintaining the powerful lyrics and melody from Farisha's vocal contribution, and keeping up to date on the latest musical trends.

If you are looking for your next hit to be recorded, look no further than *D:Raf Recording Studios*, where quality, professionalism and commitment to your project is uncompromised.
